

3 May 2023

To whom it may concern,

I would like to introduce myself as Associate Publisher for Chemical and Biological Technologies in Agriculture. I'm writing to confirm that Dr. Ahmed Aj Jabbar has served as a reviewer for this journal.

Chemical and Biological Technologies in Agriculture is an international, interdisciplinary, peer-reviewed forum for the discussion of all fields of agricultural chemistry and related technologies.

Dr Ahmed Aj Jabbar reviewed a manuscript for Chemical and Biological Technologies in Agriculture in April 2023. We would like to express our gratitude for his exceptional and profound service as a reviewer and recognize his hard work providing the support and feedback necessary to find, develop, and publish material of such consistent high quality.

Best wishes,

Alex Waite
Associate Publisher
