Acknowledgements

This course book is the product of a joint project between **Erbil Polytechnic University** (EPU) and **Spark Organization** to develop English Language Curriculum in Kurdistan Region and Iraqi Universities. This material is designed for first year college students of EPU to develop their competencies and skills for the labour market. It is designed to improve their English language and technical skills in the fields of communication, interviews, job hunting, and interaction with people, customers, business owners and entrepreneurs.

We would like to extend our thanks and appreciation for the SPARK team and their support during the joint work. Special thanks also go to **Dr Marilize Pretorius** for her valuable comments and supervision throughout the project. The project would not have been successful without her reviews and continuous support.

The authors would like to thank **Professor Dr Kawa Sherwani** for his trust and administrative support in the project. The book finished without his direct supervision.

Last but not least, we would like to show gratitude for **Assist Prof Dr Idrees Mohammed Tahir** for his support during the publication process of the course book.
