Dear Bashir,

thank you for the time and effort you invested in your **Review of: "Hospital's Thermo-neutral Zone for Patient Safety and Climate Change Sustainability"**, this is so much appreciated!

If you wish to add your review to your [Publons/WoS](#) profile, simply forward this email to reviews@webofscience.com.

We'd also love to invite you to consider Qeios for your **next paper**, leading to **15x more reads**.

With Qeios, you have two options:

- **Post as a preprint** and get up to 18x more peer feedback than other preprint venues, boosting acceptance rates at your chosen journals. Remember, preprints aren't considered duplicate publications.
- **Publish directly** on Qeios for a free, swift, and transparent publishing experience.

Accept invitation

After accepting, you can submit your paper at your convenience – we don't impose deadlines.

For any questions or concerns, simply reply to this email.

Best,

Qeios Team
