

1-10-2023

Dear Dr. Basil Younus Mustafa,

We would like to submit the manuscript entitled “Intelligent Estimator Design and Validation for Liquid-Level Monitoring” authored by Vighnesh Shenoy and Santhosh K V to be considered for publication as an original article in Journal of Engineering.

The paper provides a monitoring technique to measure the level of liquid in the tank. For the purpose technique and estimator is designed. The work discusses the design of chaotic observer from the data obtained from the physical system and its validation with other models.

We would inform that the work is not submitted or considered else where in any conference or journal. The work has not received any funding from any sources, and the author do not have any conflict of interest.

Thank you for your consideration.

Sincerely,

Dr. Santhosh KV and Vighnesh Shenoy
