Personal statement and interests:

Accustomed to long work hours, scientific research, teaching skills. I am fully interested in expanding my knowledge of Midwifery, pediatric, Community Health and emergency care in hospital. Assessment of population about knowledge in different medical lines.

I am also very enthusiastic to caring and serving patients in all departments in hospital and homes.

Very interested and keen on taking part at international organizations, meetings and conferences that has close relationship to new facts about Nursing in all fields, especially Midwifery and Gynecology. I am always seeking to gain the proper experience to elevate and enhance my level of knowledge in the above areas, for which I have devoted almost all of my time for this purpose. During this investigation I am looking forward to set up collaboration with teams or groups sharing the same interests.

I certify that all the information stated in this resume is true and complete to the best of my knowledge. I am also ready to provide documentation for every point.
