Ref.: Ms. No. **MLBLUE-D-24-01694R1**
UV-Vis photodetector based on electrospun MgFe₂O₄ microfibers
Materials Letters

Dear Dr Shelan M. Mustafa,

Thank you for reviewing the above referenced manuscript. I greatly appreciate your contribution and time, which not only assisted me in reaching my decision, but also enables the author(s) to disseminate their work at the highest possible quality. Without the dedication of reviewers like you, it would be impossible to manage an efficient peer review process and maintain the high standards necessary for a successful journal.

I hope that you will consider Materials Letters as a potential journal for your own submissions in the future.

You can access your review comments and the decision letter (when available) by logging onto the Editorial Manager site at:

<https://www.editorialmanager.com/mlblue/>

As a token of appreciation, we would like to provide you with a review recognition certificate on Elsevier Reviewer Hub (reviewerhub.elsevier.com). Through the Elsevier Reviewer Hub, you can also keep track of all your reviewing activities for this and other Elsevier journals on Editorial Manager.

If you have not yet activated your 30 day complimentary access to ScienceDirect and Scopus, you can still do so via the [Rewards] section of your profile in Reviewer Hub (reviewerhub.elsevier.com). You can always claim your 30-day access period later, however, please be aware that the access link will expire six months after you have accepted to review.

Kind regards,

Professor Flavio Leandro Souza
Editor
Materials Letters
