

To whom it may concern

We communicate that the paper entitled:

“Simulation Design of Different Rectangular Horn Antenna Shapes Operating at 28 GHz Using CST and HFSS Techniques” (Id 22857) by Skala Hatem Mohammed, Mudhaffer Mustafa Ameen, and Sattar Othman Hasan has been submitted on our Journal International Journal on Communications Antenna and Propagation (IRECAP), and after a regular peer-review process it has been accepted for publication on Vol 13 n°2, April 2023 of the Journal.

Sincerely yours,

Robert Riceford
